

NEVER AGAIN

A CALL-TO-ACTION

ACCOUNTABILITY AND ACTION

The Federal Covid emergency powers are set to expire May 2023 but the impacts of pandemic policies will be felt for a generation. We believe lawmakers in Washington, D.C. must act to ensure that the terrible infringement of Americans' Constitutional rights never happens again.

MORE HARM THAN GOOD

LOCKDOWNS

Federal guidance, healthcare policies together with state and local mandates greatly harmed individuals, families, businesses and communities. From stay-at-home orders to school closures, the incalculable loss of earning and learning will be felt for decades. The loss of trust in our institutions – the vital connection between citizen and government – will not recover without action.

FEAR AND DISCRIMINATION

From mass testing to fearmongering projections, from mask mandates to vaccination discrimination, federal and state officials threw out the playbook for rational pandemic planning and instilled a culture of panic, agitation, and censorship.

CALL-TO-ACTION

Lawmakers must enact sensible federal legislation on these principles:

- **Resuscitate Constitutional Rights** – Emergency powers must never infringe on freedom of speech, assembly or religious freedom again.
- **Defund Discrimination** – Pass legislation to withhold federal funds from state, local or NGOs who discriminate on the basis of vaccination status
- **Truth and Accountability** – Hold hearings to uncover and hold accountable those who enacted these terrible policies

QUICK STATS AND INFO

- Covid rules derailed learning for 1.6 billion kids.
- 1 in 4 young adults had ideations of suicide.
- Military suicides up 20%.
- School closures in the US decreased reported child abuse by 27 percent.
- Millions of cancer screenings missed.
- Government censored individuals and groups.
- Massive waste of taxpayer dollars.
- Huge job losses, inflation from compensation.
